

Transplanters

MULTIPLE BED TRANSPLANTER

Our multiple row transplanters are perfect for large producers who need to set a lot of plants in a short period of time. We offer 2 and 3 bed transplanters as part of our standard product line but can fabricate other variations depending upon your needs and requirements.

Multiple row transplanters usually work with tractor-mounted water tanks. Call our sales department for more information.

See the following sections for descriptions of the accessories that are used with multiple row transplanters.

Part #	Description
PS421	2 bed transplanter on 5 ft (152 cm) row centers, frame only, std wheel frame
PS420	2 bed transplanter on 6 ft (183 cm) row centers, frame only, std wheel frame
PS423	3 bed transplanter on 5 ft (152 cm) row centers, frame only, std wheel frame
PS425	3 bed transplanter on 6 ft (183 cm) row centers, frame only, std wheel frame
PS424	3 bed transplanter on 5 ft (152 cm) row centers, frame only, free floating wheel frame
PS426	3 bed transplanter on 6 ft (183 cm) row centers, frame only, free floating wheel frame

Punch wheels are not included with transplanters and must be ordered separately. Call our sales department for weights and dimensions.
